acc. to OSHA HCS

Printing date 04/30/2018

Version: 1.0

Reviewed on 04/30/2018

1 Identification

- · Product identifier
- · Trade name: SODASORB® 4-8 IND H MED
- Application of the substance / the preparation: Absorbent Intermediate product of varied applicability in industry and trade.
- · Details of the supplier of the safety data sheet
- · Manufacturer/Supplier:

Henkel Corporation One Henkel Way Rocky Hill CT 06037 USA Tel: +1-800-571-5100 Fax: +1-860-571-5465

· Information department: sds.darex@henkel.com

• Emergency telephone number: Chemtrec North America: +1-800-424-9300 Chemtrec International: +1-703-527-3887 Other Emergencies (24hr): +1-617-876-1400

Chemtrec North America: +1-800-424-9300 Chemtrec International: +1-703-527-3887

2 Hazard(s) identification

- · Classification of the substance or mixture
 - GHS05 Corrosion

Eye Dam. 1 H318 Causes serious eye damage.

Skin Irrit. 2 H315 Causes skin irritation. STOT SE 3 H335 May cause respiratory irritation.

- · Label elements
- GHS label elements Classified according to OSHA 2012 HCS 29 CFR 1910.1200 and the Canadian Hazardous Products Act WHMIS 2015. The product is classified and labeled according to the Globally Harmonized System (GHS).

3 Composition/information on ingredients

· Chemical characterization: Mixtures

· Description: Mixture: consisting of the following components.

· List of Dar	ngerous Components	
		50-100%
	📀 Eye Dam. 1, H318; 🚸 Skin Irrit. 2, H315; STOT SE 3, H335	
	sodium hydroxide	3-5%
	📀 Met. Corr.1, H290; Skin Corr. 1A, H314	

4 First-aid measures

- · Description of first aid measures
- · After inhalation:

In case of unconsciousness place patient stably in the recovery position for transportation.

(Contd. on page 3)

(Contd. of page 2)

 After skin contact: Immediately flush skin with water for at least 15 minutes. If skin irritation occurs, consult a doctor. Immediately wash with water for 30 minutes and rinse thoroughly.
 After eye contact: Immediately flush eyes with plenty of water for at least 15 minutes. lifting lower and upper eyelid.

Immediately flush eyes with plenty of water for at least 15 minutes, lifting lower and upper eyelids occasionally. Then consult a doctor.

- · After swallowing: Do not induce vomiting; call for medical help immediately.
- · Information for doctor:
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents:

CO2, extinguishing powder or water spray. Fight larger fire with alcohol resistant foam. Use fire fighting measures that suit the environment.

- For safety reasons unsuitable extinguishing agents: No further relevant information available.
- Hazardous combustion products Carbon monoxide and carbon dioxide
- · Advice for firefighters
- Protective equipment: Do not inhale explosion gases or combustion gases.
- Additional information

Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

6 Accidental release measures

• Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.

- Environmental precautions: Do not allow product to reach sewage system or any water course. Inform respective authorities in case of seepage into water course or sewage system.
 Methods and material for containment and cleaning up: Use neutralizing agent. Dispose contaminated material as waste according to section 13.
- Ensure adequate ventilation. • Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

- · Handling:
- Precautions for safe handling Thorough dedusting.
- Information about protection against explosions and fires: No special measures required.

- · Conditions for safe storage, including any incompatibilities
- · Storage:
- · Requirements to be met by storerooms and receptacles:
- Use only receptacles specifically permitted for this substance/product.
- · Information about storage in one common storage facility: Store away from foodstuffs.
- · Further information about storage conditions: Protect from frost.

Store in dry conditions.

8 Exposure controls/personal protection

· Control parameters

· Components with limit values that require monitoring at the workplace:

1305-62-0 calcium hydroxide

- PEL Long-term value: 15* 5** mg/m³
- *total dust **respirable fraction
- REL Long-term value: 5 mg/m³
- TLV Long-term value: 5 mg/m³

1310-73-2 sodium hydroxide

- PEL Long-term value: 2 mg/m³
- REL Ceiling limit value: 2 mg/m³
- TLV Ceiling limit value: 2 mg/m³
- · Additional information: Valid lists at time of creation were used as basis.
- · Exposure controls
- Appropriate engineering controls No further relevant information available.
- · Personal protective equipment:
- · General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the skin. Prevent contact with the eyes and skin.

· Breathing equipment:

In case of brief exposure use respiratory filter device. In case of intensive or longer exposure use respirator that is independent of circulating air. As appropriate for the employee exposure, use a NIOSH approved respirator and cartridge.

As appropriate for the employee exposure, use a NIOSH approved respirator and cartridge.

· Protection of hands:

Protective gloves

Check protective gloves prior to each use for their proper condition.

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves

(Contd. of page 4)

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Recommended thickness of the material: \geq 0.5 mm

· Eye protection:

Tightly sealed goggles

Information on basic physical and chen	nical properties
General Information	
Appearance:	Dellete
Form: Color:	Pellets Whitish
Odor:	Characteristic
pH-value:	Not applicable.
Change in condition	
Melting point/Melting range:	Not determined.
Boiling point/Boiling range: Conditions of flammability	Not determined.
Flash point:	Not available.
Flammability (solid, gaseous): Ignition temperature:	Not determined.
Decomposition temperature:	Not available.
Auto igniting:	Product is not self-igniting.
Danger of explosion: Explosion limits:	Product does not present an explosion hazard.
Lower:	Not determined.
Upper:	Not determined.
Explosion data - sensitivity to mechanic	
impact	Not determined.
Explosion data - sensitivity to static discharge	Not determined.

10 Stability and reactivity

- Reactivity No further relevant information available.
- · Chemical stability No decomposition if used according to specifications.
- **Possibility of hazardous reactions** May react with trichloroethylene, producing dichloracetylene, carbon monoxide and phosgene.
- Conditions to avoid In case of thermal decomposition caused by smouldering and incomplete combustion toxic fumes may be developed.
- Incompatible materials: Protect from contamination.
- Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological information
