Product name:

Chemsorb® 1202

Revised edition no: 159 - Rev I

Date: 29 April 2022

Supersedes: Revision edition no: 159 – Rev H

1	PRODUCT AND COMPANY IDENTIFICATION	
	Product Name	Chemsorb® I 202
	CAS Number	Mixture
	Product Use	Impregnated Adsorbent
	Supplier / Manufacturer	Molecular Products Inc (a subsidiary of Molecular Products Group) 633 CTC Boulevard, Suite 200, Louisville, CO 80027, USA
	Emergency Contact	+1 202 464 2554 US and Canada
	Date of Initial Preparation	25 June 2002
	Date of Previous Revision	02 December 2016

2	HAZARDS IDENTIFICATION		
	Emergency Overview	This product is an amorphous black solid with no odor. Warning! Wet activated carbon removes oxygen from the air and can lower the concentration levels within confined spaces. Exposure can be irritating to eyes, respiratory system and skin. Harmful by inhalation and ingestion. It is a non-flammable solid. Excessive airborne dust creates a dust explosion hazard. The Environmental effects of this product have not been investigated; however this product may have adverse effects in the aquatic environment.	
	GHS Hazard Symbols	Signal Word: Warning!	
	GHS Hazard Classification(s)	Acute Oral Toxicity: Category 4	
	Hazard Statement(s)	H302: Harmful if swallowed	
	Precautionary Statement(s)	P264: Wash hands thoroughly after handling P270: Do not eat, drink or smoke when using this product P301+312: If swallowed: contact a poison center or doctor if you feel unwell P330: Rinse mouth P501: Dispose contents/containers in accordance with local/regional/national regulations	
	Other Hazard Information	This product contains substances that have a workplace exposure limit (WEL). Please note that potassium hydroxide is the hazardous component of this mixture and is adsorbed onto the activated carbon. Activated carbon does not pose a high health hazard and this product should not pose a high health hazard unless decomposed. Potassium hydroxide is a corrosive material but when adsorbed, the final product is not corrosive.	

3	COMPOSITION AND INFORMATION ON INGREDIENTS			
	Composition Activated carbon, virgin coconut shell plus additives			
	Substance name	Content	CAS No	Classification
	Carbon, Activated	80-85%	7440-44-0	None
	Potassium Hydroxide	< 5%	1310-58-3	Hazard Classification: [Xn] Harmful
	Potassium Iodide	< 3%	7681-11-0	Hazard Classification: [Xn] Harmful H302, H315, H319
	Balance of other ingredients is non-hazardous or less than 1% in concentration (or 0.1% for carcinogens, reproductive toxins, or respiratory sensitizers).			

4	FIRST-AID MEASURES	
	Contaminated individuals of chemical exposure must be taken for medical attention if any adverse effect occurs. Rescuers should be taken for medical attention, if necessary. Take copy of label and SDS to health professional with contaminated individual.	
	Eye Contact	If product enters the eyes, open eyes while under gentle running water for at least 15 minutes. Seek medical attention.
	Skin Contact	Wash skin thoroughly after handling. Seek medical attention if irritation develops and persists. Remove contaminated clothing. Launder before re-use.

Product name:

Chemsorb® 1202

Revised edition no: 159 - Rev I

Date: 29 April 2022

4	FIRST-AID MEASURES	
	Inhalation	If breathing becomes difficult, remove victim to fresh air. If necessary, use artificial respiration to support vital functions. Seek medical attention.
	Ingestion	If product is swallowed, call physician or poison control center for most current information. If professional advice is not available, do not induce vomiting. Never induce vomiting or give diluents (milk or water) to someone who is unconscious, having convulsions, or who cannot swallow. Seek medical advice. Take a copy of the label and/or SDS with the victim to the health professional.
	Health Hazards or Risks from Exposure	Acute: Exposure to this product can cause mechanical irritation to eyes, respiratory system and skin Inhalation: Avoid use in confined spaces. Wet activated carbon can adsorb and remove oxygen from the air causing a severe inhalation hazard to workers. Inhalation of dusts may be irritating to respiratory tract. Provide appropriate local exhaust ventilation at machinery and at places where dust can be generated. Eye: May cause mechanical irritation, avoid contact with eyes. Skin: May cause mechanical irritation, avoid contact with skin. Chronic: None known.
	Routes of Exposure	Acute: Inhalation, Eye Contact, Skin Contact Chronic: None known
	Medical Conditions Aggravated by Exposure	Pre-existing skin, respiratory system or eye problems may be aggravated by prolonged contact.
	Recommendations to Physicians	Treat symptoms and reduce over-exposure.

5	FIRE-FIGHTING MEASURES	
	Fire Extinguishing Materials	As appropriate for surrounding fire. Carbon dioxide, foam, dry chemical, halon, or water spray. Do not release runoff from fire control methods to sewers or waterways.
	Unusual Fire and Explosion Hazards	High dust concentration may form explosive mixtures with air, which can be ignited by spark, flame, or static discharge.
	Explosion Sensitivity to Mechanical Impact	Not Sensitive
	Explosion Sensitivity to Static Discharge	Sensitive (Air/Dust mixtures)
	Special Fire Fighting Procedures	Incipient fire responders should wear eye protection. Structural firefighters must wear Self-Contained Breathing Apparatus and full protective equipment. Isolate materials not yet involved in the fire and protect personnel. Move containers from fire area if this can be done without risk, otherwise, cool with carefully applied water spray. If possible, prevent runoff water from entering storm drains, bodies of water, or other environmentally sensitive areas.

6	ACCIDENTAL RELEASE MEASURES	
	Spill and Leak Response	Personnel should be trained for spill response operations.
	Spill Response PPE	Coveralls, dust mask, safety glasses or goggles, nitrile gloves
	Cleanup Procedure	Contain spill if safe to do so. Prevent entry into drains, sewers, and other waterways. Sweep, shovel or vacuum (HEPA vacuum) spilled material and place in an appropriate container for re-use or disposal. Avoid dust generation if possible. Dispose of in accordance with applicable Federal, State, and local procedures (see Section 13, Disposal Considerations).

Date: 29 April 2022

Supersedes: Revision edition no: 159 - Rev H

7	HANDLING AND STORAGE		
		As with all chemicals, avoid getting this product ON YOU or IN YOU. Wash thoroughly after handling this product. Do not eat, drink, smoke, or apply cosmetics while handling this product. Avoid breathing dusts generated by this product. Use in a well-ventilated location. Remove contaminated clothing immediately. Do not enter places where bulk material is used or stored until adequately ventilated to prevent asphyxiation.	
	Work Practices and Hygiene Practices	As with all finely divided materials, precautions should be taken to avoid inhalation and eye contact. Ground all transfer, blending and dust collecting equipment to prevent static discharge in accordance with NFPA 70, "National Electric Code;" NFPA 499, "Recommended Practice for the Classification of Combustible Dusts and of Hazardous (classified) Locations for Electrical Installations in Chemical Process Areas;" NFPA 654, "Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids" and OSHA Combustible Dust standards. Remove all ignition sources from material handling, transfer and processing areas where dust may be present.	
	Storage and Handling Practices	Containers of this product must be properly labeled. Store containers in a cool, dry location away from heat, flame and incompatible materials. Do not store product outside or in extreme heat. Do not store product in direct sunlight. Keep container tightly closed when not in use. Avoid buildup of static charge in handling equipment. Avoid handling the product in a manner that generates dust. Excessive airborne dust in an enclosed space may create a dust explosion hazard.	
	Incompatible Materials	Avoid contact with strong oxidizing agents, strong acid salts of alkaloids, chloral hydrate, mercurous chloride, potassium chlorate, bromine trifluoride, chlorine trifluoride, fluorine and metals.	

Exposure Limits/Guidelines	Either local exhaust	or general room ventilation is usually requir	ed	
Chemical Name	CAS#	ACGIH TLV	OSHA PEL	
Carbon, Activated	7440-44-0	10 mg/m³ Dust (inhalable particles)	15 mg/m³ Total Dust 5 mg/m³ Respirable Fracti	
Potassium Hydroxide	1310-58-3	2 mg/m³ (ceiling)	Not listed	
Potassium Iodide	7681-11-0	0.01 ppm	Not listed	
Currently, International exposure country for the most recent limit		mponents of this product. Please check with	competent authority in each	
Ventilation and Engineering Contr	rols			
		exposure levels are maintained below the limits provided above. Use local exhaust ventilation to co wer stations are available near areas where this product is used.		
Personal Protective Equipment				
The following information on appropriate Personal Protective Equipment is provided to assist employers in complying with OSHA regulations found in 29 CFR Subpart I (beginning at 1910.132) or equivalent standard of Canada, or standards of EU member states (including EN 149 for respiratory PPE, and EN 166 for face/eye protection), and those of Japan. Please reference applicable regulations and standards for relevant details.				
details.				
Respiratory Protection	necessary, use only Protection Standard	ontaminant concentrations below guidelines respiratory protection authorized in the U.S (29 CFR 1910.134), equivalent to U.S. State the European Standard EN149, or EU memb	. Federal OSHA Respiratory standards, Canadian CSA

Product name:

Chemsorb® 1202

Revised edition no: 159 - Rev I

Date: 29 April 2022

8	EXPOSURE CONTROLS / PERSONAL PROTECTION	
	Body Protection	Use body protection appropriate to prevent contact (e.g. lab coat, overalls). If necessary, refer to appropriate Standards of Canada, or appropriate Standards of the EU, Australian Standards, or relevant Japanese Standards.

9	PHYSICAL AND CHEMICAL PROPERTIES	
	Physical State	Amorphous Solid
	Appearance and Odor	Black Solid with no odor
	Odor Threshold (PPM)	None
	Vapor Pressure (mmHg)	Not Applicable
	Vapor Density (AIR=I)	Not Applicable
	Density	0.25 to 1.0 g/mL
	Evaporation Rat e (nBuAc=1)	Not Applicable
	Boiling Point (°C)	Not Applicable
	Freezing Point (°C)	Not Applicable
	рН	Not Applicable
	Specific Gravity 4° C (Water=1)	0.25 to 1.0
	Solubility in Water (%)	Insoluble
	VOC	0
	Upper Explosive Limit	Not Applicable
	Lower Explosive Limit	Not Applicable
	Flammability	Not Applicable
	Flash Point	Non-Flammable
	Auto-Ignition Temperature	Not Applicable
	Partition Coefficient	Not Applicable
	Decomposition Temperature	Not Determined
	Viscosity	Not Applicable

10	STABILITY AND REACTIVITY	
	Stability	Product is stable
	Decomposition Products	Thermal decomposition (burning) may produce irritating and toxic fumes of carbon (carbon dioxide, carbon monoxide), oxides of nitrogen, oxides of potassium and oxides of iodine. The exact chemicals formed depend on many factors including temperature and heating rate. Potassium hydroxide reacts with metals and their alloys to generate flammable and explosive hydrogen gas.
	Materials with which Substance is Incompatible	Avoid contact with strong oxidizing agents, strong acid salts of alkaloids, chloral hydrate, mercurous chloride, potassium chlorate, bromine trifluoride, chlorine trifluoride, fluorine and metals.
	Hazardous Polymerization	Will not occur.
	Conditions to Avoid	Contact with incompatible materials and dust generation.

11	TOXICOLOGICAL INFORMATION	
	Toxicity: There is no available data for the product, only for the ingredients.	
	CAS# 7440-44-0 LC-50, Inhalation – Rat	> 64,400 mg/m ³
	CAS# 7440-44-0 LD 50, Oral - Rat	> 10,000 mg/kg
	CAS# 1310-58-3 LD 50, Oral – Rat	273 to 1,230 mg/kg

Product name:

Chemsorb® 1202

Revised edition no: 159 - Rev I

Date: 29 April 2022

Supersedes: Revision edition no: 159 – Rev H

11	TOXICOLOGICAL INFORMATION	
	CAS# 7681-11-0 LD 50, Oral – Mouse	> 1,000 mg/kg
	Suspected Cancer Agent	None of the ingredients are found on the following lists: FEDERAL OSHA Z LIST, NTP, CAL/OSHA, IARC and therefore is not considered to be, nor suspected to be, a cancer-causing agent by these agencies.
	Irritancy	Exposure to this product can cause mechanical irritation to eyes, respiratory system and skin.
	Sensitization	This product is not considered a sensitizer.
	Reproductive Toxicity	No information concerning the effects of this product and its components on the human reproductive system.
	Health Hazards or Risks from Exposure	Acute: Exposure to this product can cause mechanical irritation to eyes, respiratory system and skin Inhalation: Avoid use in confined spaces. Wet activated carbon can adsorb and remove oxygen from the air causing a severe inhalation hazard to workers. Inhalation of dusts may be irritating to respiratory tract. Provide appropriate local exhaust ventilation at machinery and at places where dust can be generated. Eye: May cause mechanical irritation, avoid contact with eyes. Skin: May cause mechanical irritation, avoid contact with skin. Chronic: None known.
	Routes of Exposure	Acute: Inhalation, Eye Contact, Skin Contact Chronic: None Known

12	ECOLOGICAL INFORMATION	
	All work practices must be aimed at eliminating environmental contamination.	
	Environmental Stability	The ecological characteristics of this product have not been fully investigated. The product should not be discharged unmonitored into the environment.
	Effect of Material on Plants or Animals	No evidence is currently available on this product's effects on plants or animals.
	Effect of Chemical on Aquatic Life	No Data Available for this product at this time.
	Note: This product is readily biodegradable and is not expected to bio-accumulate.	

13	DISPOSAL CONSIDERATIONS	
	Preparing Wastes for Disposal	Waste disposal must be in accordance with appropriate Federal, State, and local regulations, those of Canada, Australia, EU Member States and Japan. Use only appropriate containers for disposal and do not discharge any waste into the local water system.

14	TRANSPORTATION INFORMATION	
	U.S. DOT, IATA, IMO, and ADR	THIS PRODUCT * IS NOT HAZARDOUS AS DEFINED BY 49 CFR 172.101 BY THE U.S. DEPARTMENT OF TRANSPORTATION.
	* NOTE: Carbons made by steam activation process are not subject to the provision of UN Class 4.2.	
	Proper Shipping Name	Non-Regulated Material
	Hazard Class Number and Description	Not Applicable
	U.N. Identification Number	Not Applicable
	Packing Group	Not Applicable
	DOT Label(s) Required	Not Applicable
	North American Emergency Response Guidebook Number (2004)	Not Applicable
	Marine Pollutant	None of the ingredients are classified by the DOT as a Marine Pollutant (as defined by 49 CFR 172.101, Appendix B)
	This product is NOT considered spontaneously combustible under the "Self-Heating Test for Carbon" protocol listed in the United Nations' Manual of Tests and Criteria [33.3.1].	

Product name:

Chemsorb® 1202

Revised edition no: 159 - Rev I

Date: 29 April 2022

Supersedes: Revision edition no: 159 – Rev H

14	TRANSPORTATION INFORMATION	
	U.S. Department of Transportation (DOT) Shipping Regulations	This product is not classified as dangerous goods, per U.S. DOT regulations, under 49 CFR 172.101.
	Transport Canada, Transportation of Dangerous Goods Regulation	This product is not classified as Dangerous Goods, per regulations of Transport Canada
	International Air Transport Association (IATA)	This product is not classified as Dangerous Goods, by rules of IATA: Not restricted per Special Provision A3.
	International Maritime Organization (IMO) Designation	This product is not classified as Dangerous Goods by the International Maritime Organization.
	European Agreement Concerning the International Carriage of Dangerous Goods by Road (ADR)	This product is not classified by the United Nations Economic Commission for Europe to be dangerous goods.

15	REGULATORY INFORMATION	
	United States Regulations	
	SARA Reporting Requirements	This product is not subject to the reporting requirements of Sections 302, 304, and 313 of Title III of the Superfund Amendments and Reauthorization Act, as follows: None
	Toxic Control Substance Act (TCSA)	All components in this product are listed on the U.S. Toxic Control Substance Act (TCSA) inventory of chemicals.
	SARA 311/312	Acute Health: Yes Chronic Health: No Fire: No Reactivity: No
	U.S. SARA Threshold Planning Quantity	There are no specific Threshold Planning Quantities for this product. The default Federal SDS submission and inventory requirement filing threshold of 10,000 lbs. (4,540 Kg) may apply, per 40 CFR 370.20.
	U.S. CERCLA Reportable Quantity (RQ)	CERCLA Reportable Quantity (RQ): Potassium Hydroxide = 1,000 lbs.
	Clean Water Act (CWA)	None of the chemicals in this product are listed as Hazardous Substances under the CWA.
	State Regulations	None
	California Safe Drinking Water and Toxic Enforcement Act (Proposition 65)	None of the ingredients are on the California Proposition 65 lists.
	Canadian Regulations	
	Canadian DSL Inventory Status	All of the components of this product are on the DSL Inventory.
	Canadian Environmental Protection Act (CEPA) Priorities Substances Lists	No component of this product is on the CEPA First Priorities Substance Lists.

16	OTHER INFORMATION	
	Prepared By	Molecular Products, Inc.
	Disclaimer: The information in this safety data sheet is based on the best knowledge available at the time and current legislation. It provides guidance on health, safety and environmental aspects of the product and should not be construed as any guarantee of technical performance or suitability for particular application. As the specific conditions of use are outside the control of the supplier, the user is responsible for ensuring that the product is used in a safe way and in compliance with the relevant requirements of legislation.	
	Date of issue	29 April 2022
